## LIFE LONG LEARNING WITH JANUARY TRAININGS

---

### DIGITALKUTUPIST PROJECT VISIT

---

### ISU LIBRARY DICTIONARY WITH ISTINYE OWL

---

### AUTHOR OF THE MONTH UĞUR MUMCU

*Dear Members of the Istinye Family,*

We wish mercy to our citizens who lost their lives in the earthquake centered in Kahramanmaraş on February 6, and that affected our country together with 10 provinces, patience to their loved ones, and a speedy recovery to our injured people. We believe that we will overcome difficulties together as a country.

We believe that we can overcome the difficulties by working, learning and improving ourselves and that education is the foundation. As ISU Library, with the awareness of this, we continue our efforts to provide the necessary support to our esteemed academicians and students under all circumstances. The number of electronic books we added to our collection as EKUAL, purchased and subscribed reached 625,669+. This number will continue to increase with the updates of publishers and new agreements. You can access all of our electronic resources from off-campus at any time. My fellow reference librarians on the subject have completed their preparations to provide you with the necessary support.

Acting with the principle of lifelong learning, we have planned trainings so that you can conduct effective research from library resources. We will announce this training information to you in the coming days.

We will continue to share all developments and announcements about ISU Library on our ISU Library social media accounts as before. In the 11th issue of ISU Library Bulletin, we have included many topics that we believe will interest you. I hope you enjoy reading our news, the librarian's recommendations, and more.

I wish everyone good health and good days.

Kind regards,

*Bahar Biçen Aras*  
*Library Director*

# JANUARY 2 WORLD SCIENCE FICTION DAY

Since 2012, January 2 is celebrated as World Science Fiction Day every year.

Did you know that January 2, World Science Fiction Day, is celebrated on this date because it is the birthday of science fiction writer Isaac Asimov?

## THE LORD OF THE RINGS TRILOGY

running time 3 MOVIES - 696 MINUTES

directed by PETER JACKSON

produced by BARRIE M. OSBORNE  
FRAN WALSH TIM ROBBINS

starring ELIJAH WOOD IAN MCKELLEN  
ORLANDO BLOOM

**J. R. R. TOLKIEN**

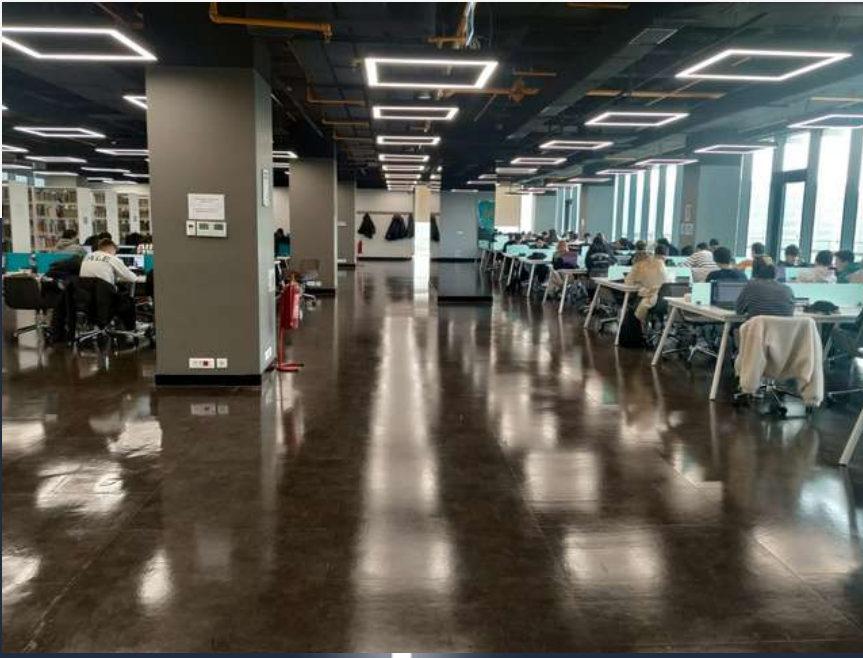

**(JANUARY 3, 1892 - SEPTEMBER 2, 1973)**

**Beren was a mortal man, Lúthien an immortal elf.**

**The story that J.R.R Tolkien created in the last years of his life was put together by his son, Christopher Tolkien.**

**"And what about the final parting of Beren and Lúthien? In the words of the Quenta Silmarillion: No one saw Beren and Lúthien depart from earth; no one could find and mark the place where they rested in peace at last."  
-Beren and Lúthien, J. R. R. Tolkien / page 239**

**Homage to Tolkien, the founder of Middle-earth, on his 131st birthday.**

We shared the final excitement of our students at the Vadi Campus Library.

# HERMES PROJECT TRAINING MEETING

REFERENCE LIBRARIAN MERVE MELİSA TEMİZ ATTENDED THE HERMES PROJECT TRAINING MEETING HELD AT MEF UNIVERSITY ON 18.01.2022. WE MEET WITH INTERNATIONAL REFERENCE LIBRARIANS AND CONNECTED ON POSSIBLE COLLABORATIONS AND EXCHANGE IDEAS.

# DIGITAL KUTUPİST PROJECT VISIT

WITHIN THE SCOPE OF THE T. R. ISTANBUL DEVELOPMENT AGENCY ISTANBUL CULTURAL HERITAGE DIGITAL LIBRARY PROJECT, WHICH WE ARE A STAKEHOLDER, PROJECT COORDINATOR ASSOC. PERVİN BEZİRCİ VISITED ISU LIBRARY ON JANUARY 19TH.

# DIGITALKUTUPIST PROJECT VISIT

# Salvador Dalí

(May 11, 1904 - January 23, 1989)

Salvador Dalí, one of the most important artists of the 20th century, representative of surrealism, was born on May 11, 1904 in Spain. Throughout his life, Dalí has produced more than 1500 paintings and dozens of sculptures, as well as various lithographs, book illustrations, theater props and costumes. He attracted attention with his eccentric clothing, behavior and words as well as his art.

# 28 JANUARY DATA PROTECTION DAY

**It has been celebrated in our country since 2016, after 28 January was declared as "Data Protection Day" by the Council of Europe. 28 January 1981 is the date of signing of the 108th convention on data protection of the Council of Europe. Signatory states have agreed to ensure respect for rights and fundamental freedoms – particularly in the personal sphere – in automated data processing.**

## **Purpose of this day:**

**To increase awareness in terms of personal data protection,  
To promote awareness of the importance of data privacy,  
Emphasize easy ways to protect personal information,  
To remind institutions of the importance of data protection and privacy.**

# TRAININGS WE ATTENDED IN JANUARY

**On 25.01.2023, the Reference Services Unit received training on the ProQuest Ebook Central database.**

**On 27.01.2023, Kübra Akın from the Technical Services Unit, Academic Communication Unit, and Yusuf Gün from the Reference Services Unit, attended the online seminar titled "The Legal Aspect of the Artificial Intelligence and Data Relationship."**

# AUTHOR OF THE MONTH

## UĞUR MUMCU

(AUGUST 22, 1942 - JANUARY 24, 1993)

Uğur Mumcu was born on August 22, 1942 in Kırşehir. During his student years, he realized that "it is not possible to have an idea without knowledge" and became an active, enthusiastic, well-read, researching and questioning young person. He drew attention with his success in the debates.

After graduating from Ankara Law Faculty, he worked as a lawyer for a short time. While he was preparing to do his military service, he was arrested and counted as "Objectionable Infantry"; After his military service, he left the university and decided to work as a journalist.

Özgür Mumcu, a journalist who always defends the truth, researches and questions, was assassinated on 24 January 1993 as a result of the explosion of a bomb placed in his car.

"Without knowledge, you can't have an idea."

## H-index

H-index, one of the bibliometric data in the scientific world, was introduced in 2005 by Jorge Hirsch from the University of California in the USA. While the number of publications made by a researcher and the citations to these publications are important, Hirsch's invention created a balance between the publication produced and the citation received.
