## *Dear Istinye University Family,*

Welcome to the 5th volume of the Library Bulletin.

We congratulate our precious students who deserve to graduate in the 2021-2022 academic year and their families who experience this pride. We would like to thank the valuable academic and administrative staff of the ISU Family, who guide our students, for their efforts. May the paths of our graduate students be open, we wish each of them a future full of hope.

While we are waiting for our dear students who will join our family with the announcement of their university exam results, we continue our preparations for the 2022-2023 academic term without slowing down. As ISU Library, we believe in the importance of #lifelong learning, and we work to ensure that both the library staff and each member of the University Family are successful. We have planned library orientations and trainings to support research for all our classes and academic staff, from preparatory classes to Institutes. We will inform you about the subject soon.

In the 5th volume of ISU Library Bulletin, we have made suggestions that we believe will be of interest to you in the section on library services and the Librarian's suggestions.

I wish a happy holiday to all academics, administrative staff and students who take their leave and stay with their families these days when the work tempo and the air temperature are high, and I would like to express that we are looking forward to seeing the new academic term and our users.

Kind regards,

*Bahar Biçen Aras*  
*Library Director*

**What is author disambiguation?**

Name ambiguity is a frequently encountered problem in the scholarly community:

- Different researchers publish under the same name
- Individual researchers publish under many names
- Languages and cultural naming conventions introduce additional challenges

Author disambiguation is a process that aims to find all publications that belong to a given author and distinguish them from publications of other authors who share the same name.

**Author Record**

An Author Record is a set of documents likely authored by the same person. Records may be complete... However, an author's documents may show up on multiple records, or a record may have a document incorrectly assigned to it.

- ✓ Published Names
- ✓ Organizations
- ✓ Publication List
- ✓ Author Metrics (Citation Network)
- ✓ Author Position

# AUTHOR OF THE MONTH

## TAHSİN YÜCEL

*A quote from the book  
Kumru and the Kumru*

---

– Tuna, why are you  
reading a book?

(...)

– To be somewhere  
other than where I am...

## TAHSİN YÜCEL

TO FIND THE RIGHT ONE MUST KNOW THE WRONG.

Tahsin Yücel, a Turkish short story and novelist, essayist, critic and translator, was born on February 17, 1933. He graduated from Galatasaray High School in 1953 and from IUEF French Language and Literature Department in 1960. Tahsin Yücel started his studies with storytelling. The plain language he used, the modern words he used, the consistency in his approach to the Anatolian people and the mastery in his expression drew attention. He received comments from names such as Behçet Necatigil.

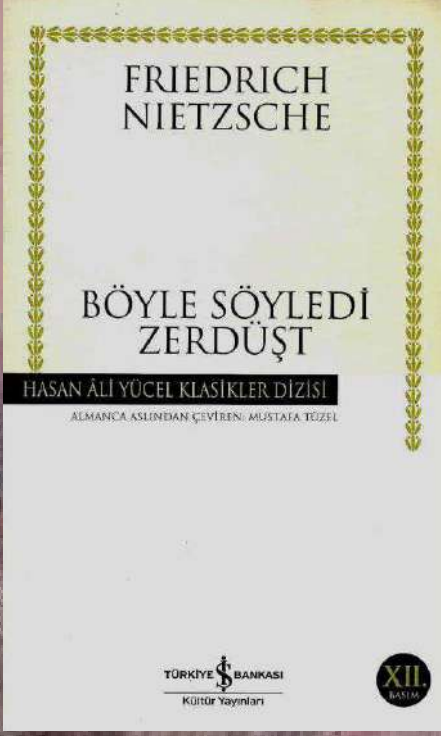

Some of his stories have been translated into Swedish and French. Yücel, who brought the works of writers such as Balzac, Flaubert, Jean Giraudoux, Proust, Camus, Sartre, and Saint-Exupéry to our language, in addition to his short story collections, novels, scientific research and institutional writings, was awarded the Azra Erhat Translation Distinguished Service Award in 1984.

## ÂŞIYAN MUSEUM

**Aşiyân Museum is the house where poet Tevfik Fikret lived between 1906-1915 and has been serving as a museum since 1945. Tevfik Fikret had this house built in 1906, for which he had arranged all the plans for his interior and exterior architecture. He sells the mansion in Aksaray, which he inherited from his father, and begins to organize this house, which he named Âşiyân, which means "Home" in Persian. The poet, who spent his last years in this house, reveals pieces of his own soul while drawing the plans of the house. The same things are often said about the general mood of Âşiyân.**

**The famous painting "Sis" by Şehzade Abdülmecit Efendi, inspired by the poem "Sis" by Tevfik Fikret, is also located here.**

**Aşiyân Museum sections are divided into many sections and each section functions separately. This 3-storey house, located in a garden, has 9 sections with its garden. These sections are listed as garden, living room, Edebiyat-ı Cedide, Abdülhak Hamit Tarhan, study room, dining room, kitchen and laundry, bedroom, Poet Nigar section.**

### Information about Aşiyân Museum

The museum, which has an excellent view, is free to enter. You can visit until 18:00.
